

# Sean Lawrence

---

Position: Web Developer

Contact: [sean.w.lawrence@gmail.com](mailto:sean.w.lawrence@gmail.com)

Resources: [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Languages: JavaScript (React.js, Node.js), HTML5, CSS3

## Summary

I build high performance websites and modern applications using React.js, Express.js and Node.js.

Languages	Frameworks	Tools	Skills
JavaScript ES6	React.js	Git / GitHub	UI / UX
JSX	React Native.js*	SCSS / Stylus	Wireframing / Mockups
CSS3	Node.js	Babel / ESLint (AirBnB)	Adobe / Microsoft Suite
HTML5	Express.js	Webpack	Cross-browser / Mobile
Markdown	GraphQL	Bash / Zsh Terminal	Google Material Design / Apple Design Standards
C++ / Web Assembly*	Meteor.js*	Google Analytics / Tag Manager & Trends	DRY / Functional Programming

\*Early stages

## Education

**San Antonio College (Online) - B.S. in Computer Science**

*Expected graduation in 2020*

# Experience

## Mail For Good

### **(November 2017 - Current) - Open Source Contributor**

- Built the documentation site for the Mail For Good repository using [Hugo](#).
- Created a single page design, using [Google's Material Design Standards](#) to enhance readability and accessibility.
- Added modals to the application screenshots for higher resolution images and wrote the pages in Markdown for easier contributions.
- Committed to maintaining and adding new features to the site as needed on the core team of this repository long-term.

## Beastgrip

### **(January 2015 - Current) - Front End Developer / VP of Business Development**

- Created new partnerships with over 10 different Fortune 500 companies.
- Designed the front end of our new, upcoming e-commerce website with [Figma](#) and modern CSS.
- Programmed 3 applications with React.js and Node.js to lower abandoned cart percentage and increase bundle sales and user engagement (currently in beta).
- Styled a [shoppable Instagram app](#) to match our branding and improve bundle sales.

## Mobile Innovation Australasia

### **(February 2017 - August 2017) - Web Developer**

- Created a new WordPress website to increase brand recognition and film submissions.
- Added Facebook, Twitter and LinkedIn feeds to increase user engagement and communication.

## Miller Street Studios

### **(August 2016 - February 2017) - Web Developer**

- Created a new WordPress website to increase bookings and showcase the music studio's best features.
- Incorporated SoundCloud embeds, a masonry image gallery and Google Maps for improved representation.
